

3rd Annual Alternative Health Fair

BLOSSOM OF THE HEALTH

Join us as we host local health practitioners in an annual event designed to educate the community on alternative healthcare choices. We have taken the run of the mill health fair and given it a 'healthy' twist! **Blossom Into Health** brings local alternative healthcare practitioners together to provide a one-stop educational opportunity to learn about ways to protect your health that don't involve typical Western medicine. Visitors can also enjoy samples of supplements and nutrient-rich foods, enter to win gift baskets and take home a tree to plant in celebration of Earth Day!
